Summary — Full Stack Developer (MERN) and Next.js, passionate about building scalable web applications with clean, maintainable code. Strong collaborator with hands-on internship experience and a focus on performance and user-centric design.

Education

BS in Information Technology
University of The Punjab

Session: 2020–2024

Skills

Languages:
JavaScript (Js), TypeScript (Ts), C++

Databases:
MongoDB, Supabase

Frontend:
React.js, React-Native, Next.js, HTML, CSS, TailwindCSS

Tools:
Git, GitHub, Postman

Backend:
Node.js, Express.js

Soft Skills:
Communication, Problem Solving, Attention to Detail, Teamwork, Leadership

Experience

Associate Software Developer
Meissasoft

Nov 2025 – Present

- Contributing to the development of scalable and responsive web applications using the MERN stack in an Agile environment.
- Building and optimizing reusable UI components using React.js, Next.js, and TailwindCSS to ensure performance and maintainability.
- Debugged and resolved front-end and back-end issues, enhancing overall performance.
- Participated in daily stand-ups, sprint planning, and peer code reviews.

MERN Stack Intern
IIFA TECH

April 2025 – Nov 2025

- Collaborated in an Agile team to develop responsive web applications using the MERN stack.
- Designed dynamic and reusable UI components in React.js with TailwindCSS.
- Can efficiently handle git
- Debugged and resolved front-end and back-end issues, enhancing overall performance.
- Participated in daily stand-ups, sprint planning, and peer code reviews.

Projects

Velo Lab

Technologies:Next.js, TailwindCSS

Live Link

- Helped to develop a full-stack application that allows users to build machine-learning models to predict stock movements
- Designed a responsive and accessible user interface using Next.js and TailwindCSS for a seamless user experience.
- Implemented AI for predictions
- Used latest coding techniques and made sure it works efficiently

Berrys

[Live Link](#)

Technologies: Next.js, TailwindCSS

- Helped to develop a full-stack application that allows users to generate videos and images using AI models
- Designed a responsive and accessible user interface using Next.js and TailwindCSS using UX practices

Lumiscap

[GitHub Repo](#)

Technologies: TailwindCSS, React.js, MongoDB, Node.js, Express.js, Seeder

- Developed a full-stack unique Web-App that is a centralized system for all digital devices
- Designed a responsive and accessible user interface using React.js and TailwindCSS
- An intelligent power monitoring application

Ibadah – Islamic Web Application

[GitHub Repo](#) — [Live Link](#)

Technologies: MongoDB, Express.js, React.js, Node.js, TailwindCSS

- Developed a full-stack Islamic web application offering features such as prayer timings, Islamic courses, and Hajj/Umrah guidance.
- Implemented real-time location-based prayer time calculations using a public API.
- Designed a responsive and accessible UI using React.js and TailwindCSS for seamless user experience.

LMS – IIFA Tech

Technologies: MongoDB, Express.js, React.js, Node.js, TailwindCSS

- Spearheading the development of a Learning Management System (LMS) using the MERN stack tailored to the educational workflows of IIFA Tech.
- Implemented dynamic course management, user authentication, and role-based access control for internees, employees, and admins.
- Collaborated with cross-functional teams to align technical solutions with academic objectives.
